Options and ordering

Choose your loading

Order the panel pre-loaded with 2, 4, 6 or 8 IP-PRO2 bulkheads. Spare cutouts stay free for more.

Mix bulkhead sizes

The round cutouts take IP-PRO2, IP-PRO12 and IP-PRO24 bulkheads, so one panel can serve different equipment.

Ordering

We build to order for businesses and individual customers, from a single assembly upwards. Trade partners can have assemblies labelled to their own scheme.

Pairs with patch cables

Made-to-length QAD fibre patch cables: simplex, duplex or ruggedised duplex, UPC or APC polish, custom jacket and boot colours. See the fibre patch cables datasheet for details.
